

Introducing the Cupcake Cork

Inventor Tracy Guesnon of Houston, Texas is set to revolutionize the baking industry with the dual patent pending invention, the Cupcake Cork!

HOW IT WORKS

1. Pour mixed cake batter into a cupcake liner
2. Place the **Cupcake Cork** in the center
3. Then bake
4. When slightly cooled, pull the tab to remove the cork leaving a perfect cavity for your favorite creme, candy or fruit fillings!

- Eliminates traditional cupcake coring methods, which saves time and money
- A great addition to be used with existing pans
- Available in (3) sizes, jumbo, standard & mini
- A must have tool for professional and home bakers
